

CALLED OUT

That is just the way we were back then
We walked in religion and pagan sin
Not a shred of truth anywhere to be found
And I know it made our Heavenly Father frown

The holiday celebrations were pagan too
He winked at our ignorance for we never knew
Now He has called us out away from it all
because that system of worship soon will fall

He wants us to worship with pureness of heart
And to come out of that thing is where we start
Out here with Him where a few only roam
He teaches us spiritual truth in loving tones

Our hearts are delighted with what we now hear
Falling so very heavy on our unlearned ear
He is teaching us about who He really is
And that we are called out to truly be His

What He is saying is so hard to believe
But my what a blessing when we receive
To know His plan we are soon to fulfill
Gives us confidence to walk in His perfect will
